Midwest Society for Pediatric Research, November 4-5, 1970, Chicago, Ill., 1055

Acetate, medroxyprogesterone, effect on adrenocortical function in children with precocious puberty (Sadeghi-Nejad, Kaplan, and Grumbach), 616

Achilles reflex time in thyroid disorders (Zachman and Prader) (Letter), 183; (Kaplan) (Reply), 184

Acid(s), amino, urinary, excretion, in phenylketonuric, hyperphenylalaninemic, and normal patients (Lines and Waisman), 474

benzoic, binding, 2-(4 hydroxybenzeneazo), glucose, nonesterified fatty acids, and insulin, effect of citrated and of heparinized blood on: metabolic effects of exchange transfusions (Schiff et al.), 603

nonesterified fatty, glucose, 2-(4 hydroxybenzeneazo) benzoic acid binding, and insulin, effect of citrated and of heparinized blood on: metabolic effects of exchange transfusions (Schiff et al.), 603

plasma amino, concentrations: infusion of protein hydrolysates in newborn infant (Stegink and Baker), 595

urinary, mucopolysaccharides in cystic fibrosis (Constantopoulos et al.), 806

Acidemia, propionic, in patients with ketotic hyperglycinemia (Ando et al.), 827

Actinomycin D therapy, surgery, and x-radiation of nephroblastoma, portal hypertension following (Roback et al.) (BCLO), 1031

Adenosine diphosphate, platelet, familial bleeding tendency associated with microcytic platelets and impaired release of (Maurer et al.), 86

Adrenocortical function in children with precocious puberty, effect of medroxyprogesterone acetate on (Sadeghi-Nejad, Kaplan, and Grumbach), 616

Agammaglobulinemia, Swiss-type, heterogeneity of phenotypic expression in family with: observations on acquisition of agammaglobulinemia (Hitzig, Müller, and Bodmer), 968

Agenesis, renal, hypogonadotrophism, and hyposmia, new findings of: multiple lentigines syndrome (Swanson, Santen, and Smith) (BCLO), 1037

Albumin synthesis rates in patients with hypoproteinemia (Walker, Ulstrom, and Lowman), 812

Alimentation, parenteral and oral, in treatment of nonspecific protracted diarrheal syndrome of infancy (Hyman et al.), 17

Allograft rejection, renal, hyperacute, similarity to: coagulation findings in hemolytic-uremic syndrome of infancy (Katz et al.), 426

Amino acid, plasma, concentrations: infusion of protein hydrolysates in newborn infant (Stegink and Baker), 595

urinary, excretion in phenylketonuric, hyperphenylalaninemic, and normal patients (Lines and Waisman), 474

Anemia, aplastic, leukemia presenting as (Shahidi) (Letter), 549; (Melhorn, Gross, and Newman) (Reply), 550

Aneurysms, brachial and coronary, infantile periarteritis nodosa with: case diagnosed during life (Chamberlain and Perry) (BCLO), 1039

Aniridia, congenital, hamartoma, and Wilms' tumor, simultaneous occurrence of (Haicken and Miller), 497

Anorchia, bilateral, with sickle-C disease (Boyer and Russotto) (Letter), 369

Antibiotics, orally administered, for treatment of upper respiratory infections in Thai children, evaluation of (Lexomboon et al.), 772

Antibodies, antimuscle, neonatal myasthenia gravis and (Grob et al.), (Letter), 723

Wilson's, varied manifestations of (Slovis et al.), 578
Disseminated intravascular coagulation in Candida albicans septicemia (Philippidis et al.) (BCLO), 683
DNA, antibodies to, in childhood systemic lupus erythematosus (Pincus et al.), 981
Dysplasia, hypohidrotic ectodermal (Crump and Danks), 466
skeletal, with multiple joint dislocations and unusual facies: Larsen's syndrome (Latta et al.), 291
Duodenum, intramural hematoma of: unusual complication of small bowel biopsy (Mullinger et al.) (BCLO), 323

XUM

E

Ectodermal dysplasia, hypohidrotic (Crump and Danks), 466
Electrocardiogram in newborn period: normal infant (Hastreiter and Abella), 146
infant with disease (Hastreiter and Abella), 346
Encephalitis, herpes simplex: virologic and serologic study of patient treated with interferon inducer (Bellanti, Catalano, and Chambers), 136
Endocarditis, bacterial, due to Neisseria flava (Scott) (BCLO), 673
Endocrine and gynecologic disorders in children, pelvic pneumography in diagnosis of (Lippe et al.), 779
Endotracheal tube position in infant (Kuhns and Poznanski), 991
Enterocolitis, acute, and oliguria (Schaffer and Spear), 892
Enterokinase deficiency, intestinal, malabsorption and growth failure due to (Haworth et al.), 481
Enzyme, branching, deficiency in skin fibroblasts and possible heterozygote detection: type IV glycogen storage disease (Howell, Kaback, and Brown), 638
Epidemiologic patterns of acute lower respiratory disease of children in pediatric group practice (Glezen et al.), 397
Epidemiology of viral and mycoplasmal agents associated with childhood lower respiratory illness in civilian population (Maletzky et al.), 407
Epilepsy, abdominal, reappraisal (Douglas and White), 59
Epileptic, anti-, medications, severe bradykinesia as manifestation of toxicity to (Prensky, DeVivo, and Palkes), 700
Epinephrine response, abnormal, to ketogenic diet or to insulin: sporadic hypoglycemia (Koffler, Schubert, and Hug), 448
Erythematosus, childhood systemic lupus, antibodies to DNA in (Pincus et al.), 981
Erythrocyte composition in diarrheal dehydration (Hellerstein and Surapathana), 585
Escherichia coli in neonatal infections, changing patterns of antimicrobial susceptibilities of (McCracken), 942
Esterified, non-, fatty acids, glucose, 2-(4 hydroxybenzeneazo) benzoic acid, binding, and insulin, effect of citrated and of heparinized blood on: metabolic effects of exchange transfusions (Schiff et al.), 603
Excretion, normal urinary catecholamine, neuroblastoma with (Voorhess) (BCLO), 680
urinary amino acid, in phenylketonuric, hyperphenylalaninemic, and normal patients (Lines and Waisman), 474
Exogenous mineralocorticoids, effect on sweat sodium in cystic fibrosis (Pereira and Orson) (BCLO), 1036

F

F trisomy, partial, associated with familial F/13 translocation detected and identified by parental chromosome studies (Carrel, Sparkes, and Wright), 664
F/13, translocation, familial, detected and identified by parental chromosome studies, partial F trisomy associated with (Carrel, Sparkes, and Wright), 664
Facies, unusual, cleft palate, mental retardation, and limb abnormalities in siblings, new syndrome (Palant, Feingold, and Berkman) (BCLO), 686
skeletal dysplasia with multiple joint dislocations and: Larsen's syndrome (Latta et al.), 291
Familial bleeding tendency associated with microcytic platelets and impaired release of platelet adenosine diphosphate (Maurer et al.), 86
F/13 translocation detected and identified by parental chromosome studies, partial F trisomy associated with (Carrel, Sparks, and Wright), 664
hand abnormality and sensori-neural deafness: new syndrome (Stewart and Bergstrom), 102
hyperthyroidism including two siblings with neonatal Graves' disease (Wilroy and Etteldorf), 625
selective deficiency of IgA (Douglas, Goldberg, and Fudenberg) (BCLO), 873
thyroid disease: lingual thyroid in two siblings and hypoplasia of thyroid lobe in third (Orti et al.) (BCLO), 675
Family adaptation to child with cystic fibrosis (Meuwissen) (Letter), 548; (McCollum and Gibson) (Reply), 549
chromosome studies (Hecht) (Editor's column), 735
Oriental-Iraqui Jewish, glucose-galactose malabsorption in (Lebenthal et al.), 844
with Swiss-type agammaglobulinemia, heterogeneity of phenotypic expression in: observations on acquisition of agammaglobulinemia (Hitzig, Müller, and Bodmer), 968
Febrile convulsions (Dodge) (Editor's column), 1083
Fetal localization, placental transport, neonatal metabolism, and possible teratogenic effects: diphenylhydantoin (Mirkin), 326
lung fluid, disappearance of, following birth (Adams et al.), 837
monitoring, rare complication of: scalp abscess (Cordero and Hon), 533
syphilis, occurrence of, after nonreactive early gestational serologic test (Al-Salihi, Curran, and Shteir) (BCLO), 121
Fever, on treatment of (Rosenfeld) (Letter), 725; (Shrand) (Letter); 726, (Smith) (Reply), 726

XUM

Fibroblasts, cultured, therapeutic implications of in vitro studies of: cystinosis (Schulman and Bradley), 833
skin, branching enzyme deficiency in, and possible heterozygote detection: type IV glycogen storage disease (Howell, Kaback, and Brown), 638
Fibrosis, cystic, carbenicillin in patients with: clinical pharmacology and therapeutic evaluation (Huang et al.), 338
clinical recognition of cor pulmonale in (Siassi, Moss, and Dooley), 794
effect of exogenous mineralocorticoids on sweat sodium in (Pereira and Orson) (BCLO), 1036

Galactose-glucose malabsorption in Oriental-Iraqui Jewish family (Lebenthal et al.), 844
-1-phosphate uridyl transferase, unstable: new variant of galactosemia (Chacko, Nadler, and Christian), 454
Galactosemia, new variant of: unstable galactose-1-phosphate uridyl transferase (Chacko, Nadler, and Christian), 454
Galactosemic woman, childbearing by (Roe et al.), 1026
Gastropathy, hypertrophic (Menetrier's disease) in childhood (Sandberg) (BCLO), 866
Gestational serologic test, early, occurrence of fetal syphilis after (Al-Salihi, Curran, and Shteir) (BCLO), 121
Gland, thyroid, new rapid technique for localization of abnormalities in migration of (Ashkar et al.) (BCLO), 870
Glomerulonephritis, chronic, complement system in: three newly associated aberrations (Pickering et al.), 30
deviations in complement system and (West and Spitzer) (Editor's column), 191
Glucose concentration, urinary, low, reliable index of urinary tract infection (Matsaniotis et al.), 851
-galactose malabsorption in Oriental-Iraqui Jewish family (Lebenthal et al.), 844
nonesterified fatty acids, 2-(4 hydroxybenzeneazo) benzoic acid binding, and insulin, effect of citrated and of heparinized blood on: metabolic effects of exchange transfusion (Schiff et al.), 603
and protein in cerebrospinal fluid, rapid screening test for (Schwartz and Parke) (BCLO), 677
Glutamine values in cerebrospinal fluid of children: some observations on clinical application (Zacarias, Harum, and Brinck) (BCLO), 318
Glutethimide and barbiturate poisoning of dog, activated charcoal in (Fiser et al.), 1045
Glycogen storage disease, type IV: branching enzyme deficiency in skin fibroblasts and possible heterozygote detection (Howell, Kaback, and Brown), 638
Gowning in premature nursery, bacteriologic and clinical evaluation of (Evans, Akpata, and Bakki), 883
Graves' disease, neonatal, familial hyperthyroidism including two siblings with (Wilroy and Etteldorf), 625
Gravis, myasthenia, neonatal, and antimuscle antibodies (Grob et al.) (Letter), 723
Growth, changes in blood and plasma volumes during (Cropp), 220
disorder, clinical, newly recognized syndrome of accelerated maturation and relative failure to thrive (Marshall et al.), 95
failure, and malabsorption due to intestinal enterokinase deficiency (Haworth et al.), 481
hormone release in children, effect of synthetic beta$^{1\text{-}24}$ corticotropin on (Del Guercio et al.) (BCLO), 689
retardation, diagnosis and management of, with special reference to problem of hypopituitarism (Root, Bongiovanni, and Eberlein), 737
Gynecologic and endocrine disorders in children, pelvic pneumography in diagnosis of (Lippe et al.), 779

H

Hageman factor (factor XII), deficiency of, in patients with nephrotic syndrome (Honig and Lindley), 633
Hamartoma, congenital aniridia, and Wilms' tumor, simultaneous occurrence of (Haicken and Miller), 497
Hand abnormality, familial, and sensori-neural deafness: new syndrome (Stewart and Bergstrom), 102

Hernia, hiatal, and "rumination" in infants and children (Herbst, Friedland, and Zboralske), 261
Heroin withdrawal in adolescents, diazepam in management of: preliminary report (Litt, Colli, and Cohen), 692
Herpes simplex encephalitis: virologic and serologic study of patient treated with interferon inducer (Bellanti, Catalano, and Chambers), 136
Heterogeneity of phenotypic expression in family with Swiss-type agammaglobulinemia: observations on acquisition of agammaglobulinemia (Hitzig, Müller, and Bodmer), 968
Heterozygote(s) detection, possible, branching enzyme deficiency in skin fibroblasts and: type IV glycogen storage disease (Howell, Kaback, and Brown), 638
Tay-Sachs disease, detection of, by assay of hexosaminidase A in serum and leukocytes (Suzuki, Berman, and Suzuki), 643
Hexosaminidase A in serum and leukocytes, detection of Tay-Sachs disease heterozygotes by assay of (Suzuki, Berman, and Suzuki), 643
Hiatal hernia and "rumination" in infants and children (Herbst, Friedland, and Zboralske), 261
Hormone, growth, release, in children, effect of synthetic beta$^{1\text{-}24}$ corticotropin on (Del Guercio et al.) (BCLO), 689
Hospital misuse of infant formula bottles: risk to infant (Helfer) (Letter), 551
Hydrolysates, protein, in newborn infant, infusion of: plasma amino acid concentrations (Stegink and Baker), 595
Hyperactive children, serotonin concentrations in whole blood of (Coleman), 985
Hyperbilirubinemic and normal infants, plasma protein binding of diphenylhydantoin in (Rane et al.), 877
Hypercalcemia in leukemia (Stein) (BCLO), 861
Hyperglycinemia, ketotic, propionic acidemia in patients with (Ando et al.), 827
Hyperphenylalaninemia, more data on sex ratio in (Easton, Martin, and Campbell) (Letter), 1078
of newborn infants, sex ratio in (Wilson, Wu, and Ware) (BCLO), 117
Hyperphenylalaninemic, phenylketonuric, and normal patients, urinary amino acid excretion in (Lines and Waisman), 474
Hypersecretion of insulin after administration of L-leucine to obese children (Loridan, Sadeghi-Nejad, and Senior), 53
Hypertension in apparently normal children (Londe et al.), 569
(Garfunkel) (Editor's column), 733
low-renin essential, another form of childhood hypertension, (Gruskin et al.), 765
portal, following surgery, x-radiation, and actinomycin D therapy of nephroblastoma (Roback et al.) (BCLO), 1031
Hyperthyroidism, familial, including two siblings with neonatal Graves' disease (Wilroy and Etteldorf), 625
Hypertrophic gastropathy (Menetrier's disease) in childhood (Sandberg) (BCLO), 866
Hypogammaglobulinemia, late-onset, with cellular immune deficiency (Wanderer, Go, and Ellis), 278
Hypoglycemia, hyperosmolar nonketotic coma associated with diazoxide therapy for (Balsam, Baker, and Kaye), 523
sporadic: abnormal epinephrine response to ketogenic diet or to insulin (Koffler, Schubert, and Hug), 448

XUM

Hypogonadotrophism, hyposmia, and unilateral renal agenesis, new findings of: multiple lentigines syndrome (Swanson, Santen, and Smith) (BCLO), 1037
Hypohidrotic ectodermal dysplasia (Crump and Danks), 466
Hypopituitarism, diagnosis and management of growth retardation with special reference to problem of (Root, Bongiovanni, and Eberlein), 737
Hypoplasia of thyroid lobe in third, lingual thyroid in two siblings and: familial thyroid disease (Orti et al.) (BCLO), 675
Hypoproteinemia, albumin synthesis rates in patients with (Walker, Ulstrom, and Lowman), 812
Hyposmia, hypogonadotrophism, and renal agenesis, new findings of: multiple lentigines syndrome (Swanson, Santen, and Smith) (BCLO), 1037
Hypothyroidism, congenital, serum creatine phosphokinase isoenzymes in (Cao et al.) (BCLO), 134

I

Iatrogenic rickets in low-birth-weight infants (Lewin et al.), 207
IgA deficiency, pancreatitis, and malabsorption, in child with diabetes (Penny et al.) (BCLO), 512

Teratogenic effects, possible, placental transport, fetal localization, mineral metabolism, and: diphenylhydantoin (Mirkin), 329
Test, early gestational serologic, occurrence of fetal syphilis after (Al-Salihi, Curran, and Shteir) (BCLO), 121
nitroblue tetrazolium dye, as aid in differential diagnosis of febrile disorders (Feigin et al.), 230
use and limitations as diagnostic aid (Park) (Editor's column), 376
rapid screening, for protein and glucose in cerebrospinal fluid (Schwartz and Parke) (BCLO), 677
Tetrazolium dye test, nitroblue, as aid in differential diagnosis of febrile disorders (Feigin et al.), 230
test, nitroblue, use and limitations as diagnostic aid (Park) (Editor's column), 376
Thai children, evaluation of orally administered antibiotics for treatment of upper respiratory infections in (Lexomboon et al.), 772
infants, lactose malabsorption in (Varavithya, Valyasevi, and Charuchinda), 710
Therapy, actimomycin D, surgery, and x-radiation, of nephroblastoma, portal hypertension following (Roback et al.) (BCLO), 1031
diazoxide, for hypoglycemia, hyperosmolar nonketotic coma associated with (Balsam, Baker, and Kaye), 523
in 67 cases of hemolytic-uremic syndrome, analysis of results of (Kaplan et al.), 420
oxygen, for premature infants (Auld), 705

XUM

Thrombocytopenia, neonatal (Strauss) (Letter), 724; (Schiff, Aranda, and Stern) (Reply), 724
and chorangioma (Froelich and Housler) (BCLO), 516
Thrombosis, bilateral renal vein, in infancy: report of survivor following surgical intervention (Mauer et al.) (BCLO), 509
Thyroid disease, familial: lingual thyroid in two siblings and hypoplasia of thyroid lobe in third (Orti et al.) (BCLO), 675
disorders, achilles, reflex time in (Zachman and Prader) (Letter), 183; (Kaplan) (Reply), 184
gland, new rapid technique for localization of abnormalities in migration of (Ashkar et al.) (BCLO), 870
involvement in systemic sarcoidosis (Hemmings and McLean (BCLO), 131
lingual, in two siblings and hypoplasia of thyroid lobe in third (Orti et al.) (BCLO), 675
Tissue culture, canine, rubella vaccine, in dog-sensitive children (Go and Moore) (BCLO), 307
Toxicity to antiepileptic medications, severe bradykinesia as manifestation of (Prensky, DeVivo, and Palkes), 700
Transfusion(s), exchange, metabolic effects of: effects of citrated and of heparinized blood on glucose, nonesterified fatty acids, 2-(4 hydroxybenzeneazo) benzoic acid binding, and insulin (Schiff et al.), 603
exchange, with citrated whole blood for disseminated intravascular coagulation (Gross and Melhorn), 415
Transplantation, renal, more on (Potter) (Letter), 369
Trisomy, F, partial, associated with familial F/13 translocation detected and identified by parental chromosome studies (Carrel, Sparkes, and Wright), 664
Tumor, Wilms', congenital aniridia, and hamartoma, simultaneous occurrence of (Haicken and Miller), 497

U

Ulcerative ileitis, chronic, in infancy (Harrison, Spear, and Dorst), 538
Umbilical catheters, contamination of (Lee) (Letter), 909; (Krauss and Kannan) (Reply), 909
(Casalino and Lipsitz) (Letter), 1077; (Krauss) (Reply), 1077
Urinary acid mucopolysaccharides in cystic fibrosis (Constantopoulos et al.), 806
amino acid excretion in phenylketonuric, hyperphenylalaninemic, and normal patients (Lines and Waisman), 474
Urinary—Cont'd
catecholamine excretion, normal, neuroblastoma with (Voorhess) (BCLO), 680
glucose concentration, low: reliable index of urinary tract infection (Matsaniotis et al.), 851
tract infection, reliable index of: low urinary glucose concentration (Matsaniotis et al.), 851
Urticaria pigmentosa, bullous, with bleeding (Simone and Hayes), 160

V

Vaccination, rubella, in large school system, evaluation of (Schiff and Bloom), 211
Vaccine, rubella, canine tissue culture, in dog-sensitive children (Go and Moore) (BCLO), 307
strain, Cendehill, of rubella virus, noncontagiousness of, from mother to newborn infant, (Monif and Held) (BCLO), 306
Varicella, disseminated, in patient with acute myelogenous leukemia: treatment with cytosine arabinoside (Prager, Bruder, and Sawitsky) (BCLO), 321
Vascular, intra-, coagulation, disseminated, in Candida albicans septicemia (Philippidis et al.) (BCLO), 683
exchange transfusion with citrated whole blood for (Gross and Melhorn), 415
obstruction, pulmonary, persistent, in newborn infants (Siassi et al.), 610
Vein, renal, bilateral, thrombosis, in infancy: report of survivor following surgical intervention (Mauer et al.) (BCLO), 509
Viral hepatitis and Australia antigen (Krugman), 887
and mycoplasmal agents associated with childhood lower respiratory illness in civilian population, epidemiology of (Maletzky et al.), 407
Virus, rubella, noncontagiousness of Cendehill vaccine strain of, from mother to newborn infant (Monif and Held) (BCLO), 306
Vitamin A, plasma: nutritional status of preschool children (Owen et al.) (BCLO), 1042

W

Wilms' tumor, congenital aniridia, and hamartoma simultaneous occurrence of (Haicken and Miller), 497
Wilson's disease, varied manifestations of (Slovis et al.), 578
Wilson-Mikity syndrome followed by "idiopathic" pulmonary hemosiderosis (Wang et al.) (BCLO), 503

XUM

X

X-radiation, surgery, and actinomycin D therapy of nephroblastoma, portal hypertension following (Roback et al.) (BCLO), 1031

Y

Y-specific fluorescence in peripheral blood leukocytes (Thuline) (BCLO), 875

Puberty, normal, Turner's syndrome with XO/XX mosaicism and (Franks and Engel) (Letter), 1035
Pubic, supra-, aspiration, of the urinary bladder, serious complication of (Lanier and Daeschner) (Letter), 711
Pulmonary emphysema, symptomatic, in childhood associated with hereditary alpha-1-antitrypsin and elastase inhibitor deficiency (Talamo et al.), 20
Publication of submitted manuscripts, departmental approval for (Moss and Nelson) (Editor's column), 881
Pulmonary infections, pseudomonas, pharmacologic studies in patients with cystic fibrosis and: carbenicillin and gentamicin (Marks et al.), 822

Q

Quinacrine fluorescence microscopy, identification of G chromosomes in Down's syndrome by (Alfi, Donnell, and Derencsenyi), 656

R

RA 27/3 attenuated rubella virus, intranasal vaccination with (Puschak et al.), 55
Radionuclide scintigraphy for detection of vesicoureteral reflux in children (Blaufox et al.), 239
Renal cortical necrosis, bilateral, in newborn infant: roentgenographic diagnosis (Leonidas, Berdon, and Gribetz), 623
failure, small kidneys, polyuria, and growth retardation (Murdaugh and Fetterman), 858

Renal—Cont'd
function following cortical necrosis in childhood (Groshong et al.), 267
in patients with cystic fibrosis (Robson et al.), 42
iminoglycinuria, more on (Fraser) (Letter), 174; (Lagos) (Reply), 174
regulation of sodium (Linshaw and Gruskin), 325
solute load, fluid intake, and water balance in infancy (Martin) (Letter), 508
tubular defect, benign: iminoaciduria (Procopis and Turner), 419
Residencies and fellowships, 515
Residents and interns, training of (Day) (Editor's column), 179
Respiratory disease, lower, epidemiology of (Lewak) (Letter), 875
Retinal malformation, mental retardation, and deafness, X-linked syndrome of: Norrie's disease (Holmes), 89
Retrocerebellar "arachnoidal" cyst, infantile hydrocephalus (Gilles and Rockett), 436
Reye's syndrome, vitamin K in (Boon, Poley, and Smith) (Letter), 709; (Schwartz) (Reply), 710
Rheumatoid arthritis, juvenile, acute hepatic dysfunction in (Kornreich, Malouf, and Hanson), 27
Rickets, familial hypophosphatemic vitamin D–resistant, possible detrimental effect of large doses of vitamin D in (Stickler, Jowsey, and Bianco), 68
resistant, toward better therapy for (West) (Editor's column), 181
Roentgenographic diagnosis: bilateral renal cortical necrosis (Leonidas, Berdon, and Gribetz), 623
Rubella, measles-, virus vaccine, combined live (Villarejos et al.), 599
virus, attenuated, RA 27/3, intranasal vaccination with (Puschak et al.), 55
Russell-Silver syndrome in siblings (Haicken) (Letter), 875; (Najjar) (Reply), 876
without asymmetry (Gareis, Smith, and Summitt), 775

S

Sacrococcygeal masses, skin-covered, in infants and children (Lemire, Graham, and Beckwith), 948
Salt as emetic agent, further warning on use of (Robertson) (Letter), 877
Scintigraphy, radionuclide, for detection of vesicoureteral reflux in children (Blaufox et al.), 239
Sepsis, neonatal, early detection by examination of liquid obtained from external ear canal (Scanlon), 247
Septal defect, atrial, small: operate or procrastinate (Moss and Siassi), 854
Sera from children with cystic fibrosis and control subjects, inhibition of ciliary activity in tracheal organ cultures by (Cherry et al.), 937
Sexual hair, premature development of, plasma 17-ketosteroids and 17-beta hydroxysteroids in girls with (Rosenfield), 260
precocity: unusual complication of propylthiouracil therapy (Sadeghi-Nejad and Senior), 833
Siblings, Russell-Silver syndrome in (Haicken) (Letter), 875; (Najjar) (Reply), 876
two, cataracts, microcephaly, kyphosis, and limited joint movement in: new syndrome (Lowry et al.), 282
report of: familial multiple-level intestinal atresias (Mishalany and Der Kaloustian) (BCLO), 124
Sideroblastic anemia following congenital erythroid hypoplasia (Boxer, Hussey, and Clarke) (BCLO), 681
Skeletal anomalies, inherited pericentric chromosomal inversion (46, inv3 [p–q+]) associated with (Cohen and Davidson), 456
Skin-covered sacrococcygeal masses in infants and children (Lemire, Graham, and Beckwith), 948
ear, and lower limbs, distinctive defects of, new syndrome with acrocephalopolysyndactyly, cardiac disease, and (Sakati, Nyhan, and Tisdale), 104
fibroblasts, cultured, lactosylceramide galactosyl hydrolase deficiency and accumulation of lactosylceramide in: lactosylceramidosis (Dawson, Matalon, and Stein), 423
permeability, increased, in preterm infants (Nachman and Esterly), 628
reaction, unusual, to sterile diluent in tuberculin test (Wolk) (Letter), 509
Sodium, renal regulation of (Linshaw and Gruskin), 325
sweat, in cystic fibrosis, effect of mineralocorticoids on (Taussig and Kattwinkel) (Letter), 1034; (Pereira and Orson) (Reply), 1035
Somatic cell hybrids: applications relevant to genetic disease (Migeon), 887
Sprengel's deformity, dominant inheritance of (Wilson, Mikity, and Shinno) (BCLO), 818
Stature–, diminished, defective palate syndrome: dominantly inherited disorder (Gareis and Smith), 470
Stenosis, ureteral, severe developmental failure with coarse facial features, distal limb hypoplasia, thickened palmar creases, bifid uvual, and: previously unidentified familial disorder (Rüdiger et al.), 977
Stethescope, practical, for use in neonate (Seccareccio) (Letter), 1032
Sweat sodium in cystic fibrosis, effect of mineralocorticoids on (Taussig and Kattwinkel) (Letter), 1034; (Pereira and Orson) (Reply), 1035
Syndrome(s), Apert's, hydrocephalus in (Hogan and Bauman), 782

de Lange, congenital heart disease in (Rao and Sissman) (BCLO), 674
deprivation, pituitary function in (Krieger and Mellinger), 216
diminished stature–defective palate: dominantly inherited disorder (Gareis and Smith) (BCLO), 470
Down's, identification of G chromosomes in, by quinacrine fluorescence microscopy (Alfi, Donnell, and Derencsenyi), 656
immune deficiency, eosinophilia with Pneumocystis carinii pneumonia and (Jose, Gatti, and Good), 748
Lesch-Nyhan, screening technique for (Jenkins) (BCLO), 663
Marfan, revisited (Bianchine) (Editor's column), 717
nephrotic, glomerulonephritis with, pseudohermaphroditism, and Wilms' tumor in infancy (Spear et al.) (BCLO), 677
new: cataracts, microcephaly, kyphosis, and limited joint movement in two siblings (Lowry et al.), 282
familial, with osseous dysplasia and mental deficiency (Ruvalcaba, Reichert, and Smith), 450
of ketoacidosis in infancy (Cornblath et al.), 413
with acrocephalopolysyndactyly, cardiac disease, and distinctive defects of ear, skin, and lower limbs (Sakati, Nyhan, and Tisdale), 104
Reye's, vitamin K in (Boon, Poley, and Smith) (Letter), 709; (Schwartz) (Reply), 710
Russell-Silver, in siblings (Haicken) (Letter), 875; (Najjar) (Reply), 876
without asymmetry (Gareis, Smith, and Summitt), 775
trisomy 22, question of (Goodman et al.), (Letter), 174
Turner's, with XO/XX mosaicism and normal puberty (Franks and Engel) (Letter), 1035
unilateral hyperlucent lung (Hall and Smith) (Letter), 345
X-linked, of retinal malformation, mental retardation, and deafness: Norrie's disease (Holmes), 89
Systemic lupus erythematosus in childhood, positive fluorescent treponemal antibody test in: report of case (Lesser and O'Connell) (BCLO), 1006

T

^{99m}Tc pertechnetate for detection of cryptic thyroid tissue in childhood hypothyroidism (Hayek, Bauman, and Crawford) (BCLO), 466
Teeth, permanent, absent, congenital aplasia of alae nasi, deafness, hypothyroidism, dwarfism, and malabsorption, syndrome of (Johanson and Blizzard), 982
Test, Denver Developmental Screening, revised: accuracy as screening instrument (Frankenburg, Goldstein, and Camp), 988
half-hour synthetic 1-24 corticotropin, of adrenocortical reserve in children (Rosenbloom, Savory, and Londono), 489
nitroblue tetrazolium (McCall, Cooper, and DeChatelet) (Letter), 170; (Feigin, Shackelford, and Choi) (Reply), 170; (Park) (Reply), 171
in febrile disorders, prospective use of (Feigin, Shackelford, and Choi), 943
positive fluorescent treponemal antibody, in systemic lupus erythematosus in childhood: report of case (Lesser and O' Connell) (BCLO), 1006
tuberculin, unusual skin reaction to sterile diluent in (Wolk) (Letter), 509
Testosterone levels, correlation of growth, pubertal staging, growth hormone, gonadotropins, and, during pubertal growth spurt in males (Wieland et al.) (BCLO), 999
Tetrazolium test, nitroblue (McCall, Cooper, and DeChatelet) (Letter), 170; (Feigin, Shackelford, and Choi) (Reply), 170; (Park) (Reply), 171
nitroblue, in febrile disorders, prospective use of (Feigin, Shackelford, and Choi), 943
Thai children, arm circumference in (Choovivathanavanich and Kanthavichitra) (Letter), 707
Therapy, better, for resistant rickets, toward (West) (Editor's column), 181
iodide, in patients with cystic fibrosis, complications of (Dolan and Gibson), 684
propylthiouracil, unusual complication of: sexual precocity (Sadeghi-Nejad and Senior), 833
in protein-calorie malnutrition (Caddell) (Letter), 167; (Rosen, Campbell, and Moosa) (Reply), 168
Thrombosis of inferior vena cava in patients with cyanotic congenital heart disease (Kuehl, Perry, and Scott), 430
Thrombophlebitis, deep, associated with acute osteomyelitis (Horvath, Brodeur, and Cherry) (BCLO), 815
Thyroid tissue cryptic, in childhood hypothyroidism, ^{99m}Tc pertechnetate for detection of (Hayek, Bauman, and Crawford) (BCLO), 466
Thyroxine derivatives in amniotic fluid (Hollingsworth and Austin), 923
Tissue, conduction, potentials, other, in children, recordings of His bundle and (Brodsky et al.), 61
culture, clinical, biochemical, and ultrastructural studies in a case of chondrodystrophy presenting the I-cell phenotype in (Tondeur et al.), 366

Tissue—Cont'd
cryptic thyroid, in childhood hypothyroidism, ^{99m}Tc pertechnetate for detection of (Hayek, Bauman, and Crawford) (BCLO), 466
Toxicity, cyclopentolate (Cyclogyl), in pediatric patients (Adcock), 127
Tracheal organ clutures, inhibition on ciliary activity in, by sera from children with cystic fibrosis and control subjects (Cherry et al.), 937
Transfusion, exchange, metabolic effects of: delayed hypoglycemia following exchange transfusion with citrated blood (Schiff et al.), 589
in newborn infant with fresh and "old" blood: role of storage on 2,3-diphosphoglycerate, hemoglobin-oxygen affinity, and oxygen release (Delivoria-Papadopoulos, Morrow, and Oski), 898
Treponemal antibody test, positive fluorescent, in systemic lupus erythematosus in childhood: report of case (Lesser and O'Connell) (BCLO), 1006
Triglycerides, medium-chain, use of, in management of biliary atresia (Cohen and Gartner), 379
Trisomy 22: clinical entity (Hsu et al.), 12
syndrome, question of (Goodman et al.) (Letter), 174
Tuberculin test, unusual skin reaction to sterile diluent in (Wolk) (Letter), 509
Tuberculous otitis media and mastoiditis (Saltzman and Feigin) (BCLO), 1004
Tumor, Wilms', congenital, hazard of chemotherapy in (Pochedly et al.) (Letter), 708
pseudohermaphroditism, and glomerulonephritis with nephrotic syndrome, in infancy (Spear et al.) (BCLO), 677
Turner mosaicism, unusual (45,X/47,XXX; 45, X/46,XXqi; 45,X/46,XXr): detection through deceleration from normal linear growth or secondary amenorrhea (Hsu and Hirschhorn), 276
syndrome with XO/XX mosaicism and normal puberty (Franks and Engel) (Letter), 1035
Twins, study of: behavioral antecedents of accidental injuries in early childhood (Matheny, Brown, and Wilson) (BCLO), 122

U

Ulcerative ileitis in infancy (Brown) (Letter), 508
Ultrasound, Doppler, indirect measurement of blood pressure in infants utilizing (McLaughlin et al.) (BCLO), 300
Umbilical cord blood, base deficit of: observations on fetal heart rate and fetal biochemistry (Khazin, Hon, and Yeh), 406
United States, preschool children in: who has iron deficiency? (Owen, Lubin, and Garry), 563
Urea concentration difference, maternal-fetal, in man: metabolic significance (Gresham, Simons, and Battaglia) (BCLO), 809
Ureteral stenosis, severe developmental failure with coarse facial features, distal limb hypoplasia, thickened palmar creases, bifid uvula, and: previously unidentified familial disorder (Rüdiger et al.), 977
Urinary bladder, serious complication of suprapubic aspiration of (Lanier and Daeschner) (Letter), 711
and plasma methionine levels in young infants, effect of diets fortified with DL-methionine on (Stegink et al.), 648
Urine specimen, suitable, collection of: screening for bacteriuria in newborn nursery (Randolph) (BCLO), 463
Uvula, bifid, coarse facial features, distal limb hypoplasia, thickened palmar creases, and ureteral stenosis, severe developmental failure with: previously unidentified familial disorder with lethal outcome (Rüdiger et al.), 977

V

Vaccination, intranasal, with RA 27/3 attenuated rubella virus (Puschak et al.), 55
Vaccine, combined live measles-rubella virus (Villarejos et al.), 599
pertussis, agglutinin respose to: effect of dosage and interval (Wilkins et al.), 197
related paralytic poliomyelitis in an immunodeficient child (Feigin, Guggenheim, and Johnsen), 642
Varicella, disseminated, in patient with leukemia (Wilfert) (Letter), 172; (Prager) (Reply), 173
Vena cava, inferior, thrombosis of, in patients with cyanotic congenital heart disease (Kuehl, Perry, and Scott), 430
Venereal, non-, transmission of gonococcal infections to children (Shore and Winkelstein) (BCLO), 661
Venous gas, portal, in pediatric age group (Arnon and Fishbein), 255
intra-, alimentation, peripheral, of small premature infant (Benda and Babson), 494
diazoxide for severe hypertension in childhood (McLaine and Drummond), 829
pump, Holter (Younes) (Letter), 344
Vertebral anomalies, imperforate anus/polydactyly, syndrome: hereditary trait (Say et al.) (Letter), 1033
Vesicoureteral reflux in children, radionuclide scintigraphy for detection of (Blaufox et al.), 239
Violence against children (Gil) (Letter), 873
Viral bronchiolitis, proved, and subsequent wheezing, relationship between (Rooney and Williams), 744

XUM

Virus, rubella, attenuated, RA 27/3, intranasal vaccination with (Puschak et al.), 55
vaccine, combined live measles-rubella (Villarejos et al.), 599
Vitamin D in familial hypophosphatemic vitamin D–resistant rickets, possible detrimental effect of large doses of (Stickler, Jowsey, and Bianco), 68
E–dependent anemia in premature infant: effects of large doses of medicinal iron (Melhorn and Gross), 569
relationships between gestational age and absorption of iron (Melhorn and Gross), 581
K in Reye's syndrome (Boon, Poley, and Smith) (Letter), 709; (Schwartz) (Reply), 710
